## One More Trip for the Enterprise.

It is stated that the Matson Navi-  
gation steamer Enterprise that sail-  
ed from Hilo for San Francisco on  
last Thursday evening will make one  
more round trip to the Hawaii port  
before laying up at the coast for gen-  
eral overhauling and repairs. The En-  
terprise sailed with a full load of sug-  
ar and a few passengers. Accord-  
ing to report brought by Purser Phil-  
lips of the steamer Mauna Kea, the  
American-Hawaiian steamship Mexi-  
can arrived at Hilo on Thursday  
morning and was expected to com-  
plete loading a cargo of about twelve  
thousand tons sugar and be ready for  
sailing for Salina Cruz on Monday.

The Matson Navigation steamer Ho-  
nolulu is sailing from Hilo for Hon-  
olulu this morning having taken on  
a considerable amount of sugar at the  
Hawaii port.

The four masted schooner Eldorado  
twenty days out from Honolulu, ar-  
rived there on last Tuesday afternoon  
to load oil ties for the Coast. It  
was rough when she came in and Cap-  
tain Mosher's boat filled with wa-  
ter when he went outside the whar-  
fing buoy to meet her. Dr. Ritson  
had an unpleasant experience when  
he was leaving the vessel, a rope at  
the top of the ladder giving way and  
leaving him hanging in the air, from  
which he finally had a fall of about  
twenty-five feet into the sea. Captain  
Mosher is pleased at the fact that he  
is not the only one who has been given  
an unexpected bath.

Light House Tender Kukui Returning.  
The United States Light House ten-  
der Kukui is reported will sail from  
Hilo on Monday with destination at  
Honolulu. The vessel has been mak-  
ing a tour of the district. Purser  
Phillips of the steamer Mauna Kea  
arriving at Honolulu today states that  
the American schooner Melrose made  
a record at Hilo in the discharge of  
a large shipment of railway ties. The  
vessel was ready for sea on last  
Thursday and set sail for Puget Sound  
there to load another cargo for the  
Hawaiian Islands. During the stay  
of the Eldorado at that port an average  
of 2000 ties were put out each  
day. Hilo shipping people expect the  
schooner Ethel Zane with a cargo of  
lumber to arrive there most any day.  
The vessel has cargo for the Hilo  
Mercantile Company.

Received Prompt Discharge.  
Work of discharging the Inter-is-  
land steamer Mauna Kea was begun  
almost immediately following the low-  
ering of the gangplank this morning.  
The vessel is to sail for Kauai and  
Maui on a special trip this evening  
and no time was lost in preparing for  
the crowd. The steamer returned from  
Hilo and way ports with a cargo in-  
cluding 12 pieces of obia lumber, 2  
automobiles, 29 cords wood 249 sheep  
and 187 packages sundries. Strong  
trades and northeast swells were met  
on the homeward trip.

Missouri May Show Up This After-  
noon.  
There is a possibility that the Amer-  
ican-Hawaiian freighter Missouri  
with a large general cargo and a ship-  
ment of mainland mail will arrive off  
the harbor late this afternoon. The  
steamer is bringing freight tranship-  
ped from Atlantic steamers at the  
Isthmus of Tehuantepec. The late  
mail was placed aboard at Seattle.  
Should the vessel fail to show up to-  
day, her arrival at an early hour to-  
morrow morning is expected.

Much Rain on Trip.  
Much rainy weather is reported on  
the homeward trip of the Inter-island  
steamer Helene that arrived at Hon-  
olulu this morning with a shipment  
of 11,760 sacks sugar and a deck load  
of 75 head sheep cattle and 4 mules.  
Other lines of cargo included 28 bales  
bags and 5 packages sundries. The  
barkentine Hawaii is reported as load-  
ing sugar at Mahukona. The Inter-  
island steamer Iwawani is expected to  
have sailed from Kawaihae for Ma-  
hukona this morning.

Massachusetts Due Here June 28th.  
A cable was received by C. P.  
Morse, general freight agent for the  
American-Hawaiian line this morning  
announcing the probable arrival of the  
big freighter Massachusetts at Hono-  
lulu on or about June 28th. This ves-  
sel will be sent down to the islands  
to assist in the general cleanup of ac-  
cumulated sugars at various ports.  
The Massachusetts is scheduled to  
return to the east coast of the United  
States by the way of the Straits of  
Magellan.

## No Sugar at Kukaiaua.

Purser Phillips of the steamer Ma-  
una Kea the following sugar is await-  
ing shipment at Hawaii ports: Olan,

kaka, 13,500; Kukuihaele, 14,063; Pi-  
nailu, 15,804 and Honuapo, 6159 sacks.

## Grave Charges Made.

The morning paper makes the seri-  
ous charge that two or three white  
officers in the Pacific Mail steamer  
Persia were drunk and made a more  
or less nuisance of themselves during  
the stay of the vessel at Honolulu.  
If the same can be proven, there is  
likely to be one or more changes in  
the personnel of officers in that ves-  
sel when she returns to this port en-  
route to the Far East.

## Kinau An Early Arrival.

This morning's arrivals included  
the Inter-island steamer Kinau from  
Kauai with a fair list of cabin  
and deck passengers and an assort-  
ment of cargo including 6000 sacks  
sugar, 150 sacks rice, 57 sacks taro,  
50 cases of honey and 100 packages  
sundries. Purser Kent reports strong  
northeast trades and heavy seas on  
the inward trip.

## WATERFRONT NOTES

Battle Practice Targets Sought.  
After fifty hours of fruitless en-  
deavor the naval tug Navajo and  
Active were still outside the bar try-  
ing to get hold of the two battle-  
practice targets which the naval col-  
lier Saturn lost as she was coming  
in from San Diego Friday morning  
says the Chronicle. Several times the  
tugboats got hold of the dangerous  
derelicts, but the runaways persisted  
in snatching the heavy hawsers as if  
they were twine. With the assistance  
of the Active, the Saturn secured the  
huge hulks Friday evening and was  
heading in, but the strong ebb tide  
and rough sea combined to get them  
loose. The vessels stood by all night  
to warn coasters of the derelicts, and  
yesterday morning the Saturn came in  
after the Navajo had been dispatched  
from Mare Island to assist the Ac-  
tive.

All day the Government tugs cruised  
about, shooting lines aboard the  
tossing derelicts, and were reported  
coming in late in the afternoon by  
John Hyslop, the Merchants' Ex-  
change lookout at Point Lobos. When  
within two miles of the Heads the  
targets once more broke drift, and  
as light settled over the sea the look-  
out could observe the tugs standing  
by, but with no lines on the hulks.  
On account of the ebb tide it is not  
thought that the tugs will be able to  
make fast and bring the refractory  
targets in until today.

Cargo by American-Hawaiian.  
American-Hawaiian freighters now  
on a six days' service between New  
York and the Atlantic terminal at  
Tehuantepec and operating a twelve  
days' service in the Pacific including  
Honolulu and Hawaiian island ports  
have but recently been bringing  
quantities of European merchandise  
to this port. General Freight Agent  
C. P. Morse has been advised that the  
head office of the American-Hawaiian  
has arranged with the Cie Generale  
Transatlantique Steamship Company to  
handle freight between St. Nazaire,  
France and Pacific Coast ports over  
the Tehuantepec route. The French  
line steamers will make direct month-  
ly calls at Puerto, Mexico, the Atlan-  
tic terminal of the Tehuantepec rail-  
road, where their cargoes will be  
transferred across the Isthmus of Te-  
huantepec and picked up by the Pac-  
ific freighters of the American-Ha-  
waiian line.

## "Van Dyck" Means Double Value---Why?

—Because we make our cigars in Tampa, Fla., instead of on  
the island of Cuba.

Havana tobacco costs half as much when imported in the leaf  
as it does in the form of cigars.

—And this saving of 100 per cent. duty goes into Van Dyck  
"Quality," and is afforded each smoker.

Van Dyck  
"Quality" Cigars

—In Cuba we have our own  
warehouses and preparatory  
department.

Through our experts, on the  
ground, we get the pick of the  
choicest tobacco grown—the  
finest Havana tobacco.

On native soil these leaves  
are mellowed into their fullest  
fragrance and flavor—then  
shipped to our factory in  
Tampa.

Here climatic conditions are  
similar to those of Cuba. And  
here we employ none but Cu-  
ban experts—the world's finest  
cigar makers.

Van Dyck "Quality" is to be  
had in twenty-seven different  
sizes—from the thin, mild pa-  
neta to the fat, full-flavored  
perfecto—each one the utmost  
in Havana perfection.
